Description

UkraineInvest is a government's investment promotion office created to attract and support foreign direct investment in Ukraine. As an investment promotion office, UkraineInvest provides investors with reliable, up-to-date information and advice on doing business in Ukraine. UkraineInvest identifies reoccurring obstacles that investors are facing and helps appropriately resolve issues through government channels. UkraineInvest collaborates with the business community, foreign embassies in Ukraine and Ukrainian embassies abroad, business associations, international financial institutions, and state agencies to ensure Ukrainian integration into the global value chain. UkraineInvest facilitates inward foreign investment and assists existing investors to expand their businesses in the country.
